POSSIBLE BREACHES OF SECURITY BY SECRETARIES
TO "ENGINEERS".

From: MOSCOW

To: CANBERRA[i]

No.: 26

29 January 1947

We have independent indications of shortcomings in the behaviour of the secretaries to the ENGINEERS [INZhENERY][ii] in certain countries; this constitutes an obvious danger, considering the knowledge which the secretaries have of many secrets of the work of the WORKSHOPS [TSEKHI][iii], and of the way of life of the ENGINEERS and their families. The PLANT [ZAVOD][iv] attaches great significance to these indications.

Please [C] give your opinion on these questions],

[13 groups unrecovered]

existing concrete examples of the breaking of rules for behaviour abroad, instances of establishment of personal relations with foreigners, suspect local Soviet citizens, etc.
